- Version Control: GitHub
- Integrated Development Environments (IDEs): Visual Studio Code, PyCharm

SUMMARY

These are the skills/traits that I bring to the table:
- Adaptability and Flexibility
- Effective communication
- Strong Problem-Solving Skills
- Team leader

PROJECTS

1. Web-based Bucket-list Application
An interactive web app where users can create, track, and share their personal bucket lists.

- Developed a user-friendly interface allowing users to add, edit, and delete items on their bucket lists.

2. Car Rental Web App

A web platform to browse, book, and manage car rentals.

- Developed a responsive interface for users to search and filter available cars by model, location, and rental period using HTML, CSS, Javascript.

3. Personal Portfolio Website
A responsive portfolio showcasing my projects, skills, and contact information.

- Created using HTML5, CSS3, and JavaScript with a mobile-first design approach.
- Implemented smooth navigation and dynamic sections using JavaScript to create an engaging user experience.

4. Orphanage Management system
I am currently working on developing an orphanage management system using HTML, CSS, JavaScript, PHP and MySQL that efficiently tracks and manages children, staff, donations, and resources.
